

## Health, Temperament, and Website Updates

Between the camping, hiking, and general good times (managed with conscientious and appropriate social distancing, of course), the registry and website crew have been busy in July.

The largest feature added to the website is of course, the [Health Conditions](#) page, which can be found from the general [Health page](#). Thank you to those who have provided feedback and information.

Also added to the website, is the TDR's [Temperament Test](#), which is a vast improvement on the single little box at the bottom of the [Conformation Evaluation](#). This Temperament Test is provided as a guideline for professional testers to complete, as well as for "at-home" evaluations, if finding a certified/professional temperament evaluator proves difficult.

## Tamaskan of the Month

**Weylyn Aodhaigh Wodan**  
"Aiden"

*Conchur Sierra x Arkan Diamont von Mountain Tamaskan*

[Aiden](#) is a very fun dog to live with. His ideal life consists of cuddling, eating and sleeping. He will never grow up and wants to be treated as a puppy, which he obviously isn't.

Aiden is a G2 stud residing with [Hearts of Fire](#) in the Netherlands.

## In the Media

Our own Megan Sennett, member of both the Board of Directors and Committee of Breeders, was recently interviewed with her Tamaskan Dog [Atlas \(BlaidMon Drogo\)](#) by Anna Svenska and her YouTube channel [Animal Watch](#). Megan provided information on the Tamaskan Dog breed history, as well as some of the current information on the breed. The video is scheduled to be posted in roughly a month, so keep an eye on the channel!

Atlas is a G2 Tamaskan Dog available for stud, and has sired one litter with [Bucleuch](#) in 2019. Please contact [Eudora](#) for information.

If there's anything you would like to make sure is included in the next newsletter, [please send us an email](#). If you have any questions, concerns, or comments, please also let us know. Remember, we are always looking for your dogs' stories, accomplishments, or anything else! Thank you!
