

Summer 2020

Summer 2020 is in full swing for those of us in the northern hemisphere, and registry activity is picking up! We have various outcross proposals in the works, and multiple litters planned. The Board of Directors has finalized the details for the sponsorship program we alluded to last month. Please see the details [here](#). The application form is not quite ready, but will be, within the next few weeks. In the interim, if you're interested, please contact the [Committee of Breeders](#).

That being said, the TDR is always looking for more interested parties to help out on the Board of Directors, the Committee of Breeders, as well as Tamaskan Rescue. Or, if you have an idea for something you would like to do as a new committee/subcommittee, [please let us know!](#)

Thank you all for your continued support!

Tamaskan of the Month

Fin Raziel du Lignage
"Nox"

Blufawn Dolly Parton x Merlin of Ysengrin

[Nox](#) is a 2.5-year old, G1 Tamaskan Dog. She lives in France, first near Paris, and now, in

the countryside. From the beginning, Nox was trained to walk unleashed in the streets. She is a calm and strong-minded dog. She enjoys being a photo model, always ready to jump on a spot to ham up her best profile to the camera... especially if food is involved.

Nox resides with [The Furry Road](#), and just had her first litter of eight puppies in March 2020, with D'Ninja vom Wolfstor.

If you have a health issue, or know of one in your litters, please don't hesitate to report it using the [online form](#). This includes the population of Tamaskan dogs across ALL registries, not just the TDR, as it will help the overall health of the population in the long term. We are still working on making a page on the website to denote these issues, and we sincerely apologize for being so behind. The goal is to make this information readily available for all parties interested in the breed.

Thank you for your continued diligence.
